Members Needs

*Congratulations to Jim & Ann Clark on their new great granddaughter Ellie Matthews.
She was 7 pounds 11 ounces.*

Mommy (Sierra) is fine. Due to some fluid in her lungs, they are monitoring Ellie for 48 hours in ICU.

Holy Week Service
Wednesday, April 5th
@ FBC Reeltown
16963 Hwy 49 S Notasulga, AL
There will be no activities
at our church that night.

Friday, April 7th
@ 5:30 Fellowship Hall
Please sign up in the office
so we can order enough food.

Bob Daniel	Back pain, getting a little stronger every day but has a long way to go, still no definite diagnosis but should know more by early April
Belinda Daugherty	Lung scan due to continuous cough that has gone on for a long time; appointment today with allergist & supposed to do testing Jaime Farmer (daughter) gall bladder symptoms, scan was negative, still hurting but working, she sees gastroenterologist April 4th
Glen & Connie Elmore	Test showed cancer spread to lymph nodes and hip
Bill Francis	having heart issues; he will have a heart cath Thursday at 6:30 am at EAMC; if he needs a stent, they will probably do it then, if he needs open heart surgery they will schedule as soon as possible. He has no energy!
Lucy Fuller	diagnosed with auto-immune disease, 2 meds she has been on not working, doctor is still trying to get approval from insurance for infusions
Bubba & LuCile Gibson	LuCile had foot surgery Mar. 3 rd ; she will be in a boot for a while. As a byproduct to aneurysm surgery, Bubba experienced damage to his lower body control, specifically basic functions of standing & walking, not paralysis but strength & mobility were impacted. He is working hard at Spain Rehab at UAB & is making good progress daily. He will not be good as new but hopes to function in a mainstream manner going forward. Your continued prayerful support is appreciated; LuCile got her stitches out and the pain is better, she is good on food right now; Bubba is coming home tomorrow
Shelia Gulledege	Doing pretty well, sleeping less during the day, still very weak, working to build up her strength
Cale Hanks	Fracture in elbow; looking at 6 weeks recovery time and PT for his shoulder & elbow; great report at the doctor, there is new bone growth & the gap between his bone & growth plate is closing, he is officially allowed to go without his sling & start using his arm some; back to doctor in 3 weeks from 3/17/23

Pete Harris	PSA was down to .03 at most recent check-up; going to take the pills another 3 months & he will get one more shot in 3 months, then the doctor may take him off the meds
Christy Harrison	has cirrhosis, probably caused from treatments for leishmaniasis and chemo, not a candidate for liver transplant; EGD showed various varices that are swollen; liver enzymes were down a little; scans showed cancer is still suppressed; oncologist did an iron infusion; gastroenterologist recommended she see a liver specialist (hepatologist) at UAB; will continue EGD's until she swaps doctors
Robert & Gayle Hawkins	Robert had basal cell spots removed on chin & leg last Friday; Gayle still fighting infection after sinus surgery; procedure Friday to wash out sinuses went well, still swimmy headed but better; back to the doctor Thursday
Bill & Jan Holland	Jan has Health issues, good days & bad days; Bill has COVID again; doing better; sleeping better but still coughing & weak
Evelyn Huey	Doing much better, the emphysema & COPD are GONE, she is only dealing with asthma now
Herman Kile	Squamous cell carcinoma on his face , head, and hand, surgery in Bham tomorrow
Mike Kilgore	Continue prayers; latest blood work good
Lucy Little	Thyroid biopsy & CT scan on her lungs; second thyroid biopsy still inconclusive but will need surgery to remove a nodule that we pray is not malignant; has to see neurologist due to numbness in arm before surgery can be scheduled
Frances Long	Fell, staples in head and fractured hip but no surgery necessary; recovering at home, PT 3 times a week & a helper that comes in 3 times a week to help with baths, etc., doing much better
Preston Lutley	Having migraines; CT scan showed a spot; still no results from MRI so changing doctors
Margaret Matthews	congestive heart failure; doing ok
Elizabeth McGukin	Dermatologist removed more spots on her leg, stitches out yesterday & it's doing better; rotator cuff surgery Friday March 24th
Meg Melton	Back to doctor last week, he bumped up her steroids & added a hydrocodone pain med with a cough suppressant ... going to try this and see, she is struggling with her COPD, O2 level was a little low, hearing aids are working great
Jimmy Peoples	Carpal tunnel surgery & rebuilding joint surgery went well; wearing a hand splint that is molded to fit his hand so he can't move his thumb, follow-up went well, stitches out but has to wear cast for 4 more weeks 3/15/23
Whitney Rice	Ruptured abscess in colon; surgery to remove part of colon went well, home recovering; reconnection surgery Thursday April 6th
Danna Roach	Fell & broke her hip, surgery to put in rods; last x-ray showed a new fracture in thigh, back to doctor Thursday March 23rd to see what they are going to do about the 2nd fracture
James Smith	Released from PT, sciatic pain & numbness in legs & feet is better but not gone Pray for a meeting room/space that would provide a place for people in the new development off Hwy. 63 to begin meeting until a church could be built, there is lot of community interest in a church plant
Karla Teel	Surgical procedure to figure out why she can't get over pneumonia, not supposed to take steroids because overuse has caused a bone disease but going to try them short term & see if they help
Jason Tidwell	Doing ok now, being referred to a urologist at UAB, hoping a fresh set of eyes will help
Marcia Ware	Back pain & leg pain

Jim White	Squamous cell cancer removed on face, because it is fast growing & could possibly come back & he wouldn't know he is doing 18 radiation treatments 3 times a week; only one more treatment to go!
Ellen Wright	got the pin out of her finger, bent at a 15-degree angle; normal expectancy after surgery is 5-15 degrees, more than that is considered a failed surgery; PT said last Wednesday her repair is failing, he sent a report to the doctor to let him know what is happening; she sees the doctor Thursday
Special Requests	
Annabelle Ashworth	Rare form of cancer, chemo before surgery; scans showed a large majority of the cancer cells are gone, her basketball size tumor is now grapefruit size & appears to be mostly scar tissue; surgeon was able to remove the tumor without damaging anything else, she will need another minor surgery later, pathology report will determine further treatment
Lawrence Benson (Laurie)	Doug Reid's brother-in-law in the hospital in GA, had to be resuscitated twice; home with PT, OT & speech therapies; his wife Laurie is getting help regularly now several times a week; resources help get him get to dialysis 3X a week, VA offering benefits, Laurie is feeling less overwhelmed
Glenda Brock	Heart problems & health issues Jerry Hughes' sister
Billy & Betty Bullard	Billy is not doing well Jim Cahoon
Mary Crosby	87 In hospital; 2 infections they are treating her for with IV antibiotic, transferring her to another facility to continue IV treatment Chris's mom
Pat Cutts	Many health issues; has 3-4 fractures of her spine; procedure to put cement in these areas did not help; a little better but still trying to get over the RSV, coughing still an issue, can't talk much without losing her breath, symptoms of scleroderma which are hard to keep at bay; still struggling Jean Gravette's cousin
Sophie Grace Doane	Premature; was in prenatal unit for 6 months, home now; has trac to help breathing & a feeding tube; doing well but trac may have to be in for 3 years; celebrated her first birthday Joel R.'s great-niece
Mildred East	Cancer in other breast; surgery went well; oncologist thinks prognosis is good, NO CHEMO, finished her radiation 27 th ; doing good right now, pray she has minimal side effects when she starts the new estrogen lowering drug Jean Gravette's sister-in-law
Peggy Foreman	Lizz Spencer's Mom EAMC ICU kidney failure; coded & was put on a vent, she is off the ventilator & all tubes have been removed, the swelling in her throat literally went down overnight, Home with Home Health & PT, trying to get stronger & better
Shelia Fuller	Still doing chemo even though she is in remission Holly's sister-in-law
Virginia Fuller	had another TIA, wearing heart monitor for a month, more tests coming up
Kristie Garduno	Breast cancer, mastectomy, back at work but it's rough; still doing infusions; have to redo reconstruction surgery Mar. 21st due to a hole under her arm; she will have to be out of work 6 weeks
Baby Garner Graham (Patrick & Hollin)	glowing review from doctor, vastly improved after hyperbaric oxygen therapy: positive feedback from PT, ENT, Ophthalmologist & Neurologist. He will continue several therapies over the next several months. It will still be several more months before we know if there will be any lasting effects but PTL he may be totally fine with more time Max Graham's Grandson
Tom Hall	kidney transplant surgery went well, creatinine is 1.95, the high end of normal is 1.2 so he is getting there, all his blood work was good, he asked for continued prayer because 20 pills a day & trying to follow all the doctor's instructions is not easy. He still has his port because they are still worried about kidney function due to delay of the implant; having a few side effects from meds but feels good; surgeon said Monday he is still on track, immunity drug was too strong so changed, probably why creatinine is still 1.95, back to surgeon next week Jenny Hall's son
Charles Harmon	Cancer has returned; it is very aggressive Jane Kile's brother

Edith Hathcock	87 & lives independently, fell & hit her head & could not get up so she was on the floor for over 20 hours; transferred to a nursing home for rehab, too weak to go home & probably should not live independently anymore, pray she will be accepting of the situation & make the best of it Jeff's mother
Martha Hayes	Doing well after cyst removal Barbara Reid's Aunt
Bucky & AJ Heard	AJ's breast cancer is stage 1, non-aggressive and treatable; had another MRI, no other tumors in either breast but the tumor there has grown but still stage 1, cancer is not genetic & is still contained, consultation then lumpectomy March 24th followed by a few rounds of radiation
Allison Holbrook	Brenda Hughes niece traveling OR nurse in KY in an accident little over a week ago, vehicle hit her & went under the passenger side of her SUV; her face & head hit the steering wheel, has a concussion, face swollen, eyes swollen shut, she is getting better but needs prayer
Terry Holdridge	Stress test last Thursday went well, hoping for results today
Donna Hornsby	Shannon Dark's mom; cancer; PET scan showed cancer is no better but no worse, she will start radiation soon to help relieve her back pain; radiation has been bad for her bottom teeth, she will need a lot of dental work; please pray for her daughter Shannon as she helps care for her
Jessica Hudson	Cosby's daughter, still out of remission; finished infusions, weaning off steroids
Gene Huff	heart procedure to replace a valve cancelled due to bleeding around pacemaker; pacemaker was removed for the 3 rd time due to complications with infection & bleeding; plan to replace it and do the procedure soon, home recovering
Edna Jones	David's Mom COPD issues, treating with O2 & meds; doing better
Jessica Jones (Bo & Sharon Jones)	Cervical cancer; surgery went well, best possible news from labs, cancer is grade 1A2-contained, oncologist is 95% sure he got it all, planning hysterectomy soon after she is healed from initial surgery Lizz Spencer
Katie Kennedy	Glen Elmore's youngest daughter; had a stroke: doing much better; back at work; saw cardiologist Jan. 9 th ; heart monitor did not show anything abnormal; had a TEE Feb. 13 th surgery March 17th went well and doctor says everything looks good
Carol Kuykendall	Spot discovered on lung; biopsy showed cancer; doing ok; taking chemo pill & shots; NO cancer in breast and cancer in lung is much smaller!!! Charlie's Mom
Dewayne Ledbetter	Holly's cousin's son 45 years old hit by a car, making progress; home from rehab
Laura Miller (Stephen)	3 rd round with Cancer; MD Anderson proposed: surgery in Atlanta- removed all the lymph nodes but one because it had grown between 2 blood vessels and removing it could cause loss of movement in that arm; she started the clinical trial chemo Monday 3/13 & they are able to do it at Piedmont instead of her having to go back to MD Anderson, she will do 2 weeks on & 1 week off for 2 months, then they will do a scan; then 6 ½ weeks of targeted radiation; Jean Miller's daughter-in-law
Krista McGukin	Has had uterine cancer; nodules at the bottom of her lungs have not changed since the last scan; oncologist is sending her to a gastrointestinal doctor, something is going on with her intestines; breast MRI showed no change & that is good, back in 6 months
Frank & Roseanne Modugno	Roseanne's heart surgery is scheduled for Thursday, March 23rd at the Cleveland Clinic; preop tests all day today & meeting with doctors; the surgery will be robotic assistance endoscopic surgery, it is minimally invasive with 3-4 inch incision made from up top to promote faster healing
Shelley Moore	Stage 3 non-small cell lung cancer (Adenocarcinoma), last chemo was Feb. 13 th ; CT showed tumor has shrunk, surgeon does not think he will need to remove entire left lung, but she will have a long incision to be sure he can get all the cancer & reconstruct the pulmonary artery, surgery will be March 24th at Tampa General Hospital in Florida Debbie Thompson's friend
Benford & Judy Morgan	Jerry Hughes neighbors need knee replacement but health prevents surgery

Thad Pate	Diagnosed with cancer in his mouth, 12-hour surgery went well; removed some of his jaw bone & replaced it with bone from his arm, doing really well, back to doctor Thursday to get results of the biopsy report; then he will have radiation if results show no more cancer ; PET Scan found an aneurysm in his aorta; they are going to watch the aneurysm and check it every 6 months Bea Pate
Bryce Patten	leukemia, finishes 2 years of chemo in March, he is in remission; bringing home all A's from school, doing great June C.
Baby Jackson (Cullen & Lauren Peppers)	Baby Jackson had a stroke during pregnancy, sent him to Montgomery, put him in a "cooling" state to keep brain from swelling and to slow body functions Jennie Peoples
Linda Kay Peters	Gayle Hawkin's cousin has been in remission but blood work came back bad, back on chemo; had another stroke & is in rehab, not doing good
