Members Needs

Mary Belser	LMCH Saturday afternoon, UTI, had chest pain so running tests to check heart, muscle pain caused by low potassium & magnesium, getting IV meds & breathing treatments for her asthma; running additional tests; home today
Roger Clark	Heart cath Thursday April 6 th EAMC
Bob Daniel	Back pain, getting a little stronger every day but has a long way to go, still no definite diagnosis but should know more by early April
Belinda Daugherty	CT of chest was normal; allergist said she is allergic to grass & dust mites, he thinks inflammation in her sinuses is part of what is triggering the cough, going to schedule a CT of the sinuses, changed her inhaler & nose spray, sees him again on the 30 th after scan & meds Jaime Farmer (daughter) gall bladder symptoms, scan was negative, still hurting but working, she sees gastroenterologist April 4th
Glen & Connie Elmore	Test showed cancer spread to lymph nodes and hip
Bill Francis	having heart issues; heart cath last Thursday showed 2 blockages of 100% and 2 that can be helped with a stent; he will have the stents on March 30th, he is not a candidate for open heart surgery due to his health & age
Lucy Fuller	diagnosed with auto-immune disease, 2 meds she has been on not working, doctor is still trying to get approval from insurance for infusions
Bubba & LuCile Gibson	LuCile had foot surgery Mar. 3 rd ; she will be in a boot for a while. As a byproduct to aneurysm surgery, Bubba experienced damage to his lower body control, specifically basic functions of standing & walking, not paralysis but strength & mobility; Bubba is home & they are both doing pretty good
Eleanor Gilbert Family	her uncle (Bill Gunter) passed away from pancreatic cancer
Shelia Gulledege	Doing pretty well, sleeping less during the day, still very weak, working to build up her strength
Cale Hanks	Fracture in elbow; looking at 6 weeks recovery time and PT for his shoulder & elbow; great report at the doctor, there is new bone growth & the gap between his bone & growth plate is closing, he is officially allowed to go without his sling & start using his arm some; back to doctor in 3 weeks from 3/17/23

Pete Harris	PSA was down to .03 at most recent check-up; going to take the pills another 3 months & he will get one more shot in 3 months, then the doctor may take him off the meds
Christy Harrison	has cirrhosis, probably caused from treatments for leishmaniasis and chemo, not a candidate for liver transplant; EGD showed various varices that are swollen; liver enzymes were down a little; scans showed cancer is still suppressed; oncologist did an iron infusion; still waiting on appointment with liver specialist (hepatologist) at UAB; will continue EGD's until she swaps doctors
Robert & Gayle Hawkins	Robert had basal cell spots removed on chin & leg last Friday; Gayle still fighting infection after sinus surgery; procedure to wash out sinuses went well, sorta good report at the doctor Thursday, still has infection but not as bad, trying to work with culture to get right antibiotic, she goes back next Tuesday; feeling some better
Bill & Jan Holland	Jan has Health issues, good days & bad days; Bill has COVID again; doing better finally
Judy Irvin	Recovering from diverticulitis, slowly getting better
Herman Kile	Squamous cell carcinoma on his face , head, and hand, surgery last Thursday went well; more surgery next week
Mike Kilgore	Continue prayers; latest blood work good
Lucy Little	Thyroid biopsy & CT scan on her lungs; second thyroid biopsy still inconclusive but will need surgery to remove a nodule that we pray is not malignant; has to see neurologist due to numbness in arm before surgery can be scheduled
Frances Long	Fell, staples in head and fractured hip but no surgery necessary; recovering at home, PT 3 times a week & a helper that comes in 3 times a week to help with baths, etc., doing much better
Preston Lutley	Having migraines; CT scan showed a spot; he had needed tests & headed to specialist today for results hopefully
Margaret Matthews	congestive heart failure
Elizabeth McGukin	Dermatologist removed more spots on her leg, stitches out yesterday & it's doing better; rotator cuff surgery last Friday went well, got her stitches out Monday, due to her bones being a little soft doctor wants her to wait 2 more weeks before she starts therapy
Meg Melton	Back to doctor, he bumped up steroids & added a hydrocodone pain med with a cough suppressant ... going to try this and see, she is still struggling with her COPD and needs prayer , hearing aids are working great
Jimmy Peoples	Carpal tunnel surgery & rebuilding joint surgery went well; wearing a hand splint that is molded to fit his hand so he can't move his thumb, follow-up went well, stitches out but has to wear cast for 4 more weeks 3/15/23
Whitney Rice	Ruptured abscess in colon; surgery to remove part of colon went well, home recovering; reconnection surgery Thursday April 6th
Danna Roach	Fell & broke her hip, surgery to put in rods; last x-ray showed a new fracture in thigh, great report, the bone is growing back, can add weight as tolerated
James Smith	Released from PT, sciatic pain & numbness in legs & feet is better but not gone Pray for a meeting room/space that would provide a place for people in the new development off Hwy. 63 to begin meeting until a church could be built, there is lot of community interest in a church plant
Karla Teel	Surgical procedure to figure out why she can't get over pneumonia, not supposed to take steroids because overuse has caused a bone disease but going to try them short term; short term steroids have not helped, back to pulmonologist Thursday, they did a CT scan last time for comparison
Jason Tidwell	Doing ok now, being referred to a urologist at UAB, hoping a fresh set of eyes will help
Marcia Ware	Back pain & leg pain

Ellen Wright	got the pin out of her finger, bent at a 15-degree angle; normal expectancy after surgery is 5-15 degrees, more than that is considered a failed surgery; the only option for her finger is to have it permanently fused with a screw, which means another surgery , having to keep the joint splinted now, need to let it heal some before doing anything else, probably won't do surgery until Joe gets back from his next trip (April 2th - May 15th) epidural & trigger point injections for lumbar & cervical spine in Bham Thursday
Special Requests	
Annabelle Ashworth	Rare form of cancer, chemo before surgery; scans showed a large majority of the cancer cells are gone, basketball size tumor is now grapefruit size & appears to be mostly scar tissue; surgeon was able to remove the tumor without damaging anything else; had a serious incident Sunday night around midnight & had to call 911, paramedics (her Dad was one of them) were able to stabilize her & transport her to Children's. She had an emergency surgery around 3 am; everything went well and she is resting comfortably
Lawrence Benson (Laurie)	Doug Reid's brother-in-law in the hospital in GA, had to be resuscitated twice; home with PT, OT & speech therapies; his wife Laurie is getting help regularly now several times a week; resources help get him get to dialysis 3X a week, VA offering benefits, Laurie is feeling less overwhelmed
